Education

- Queens University Belfast**, Bsc in Computer Science Sept 2021 – June 2025
- Predicted **First Class**, current weighted average %77
 - **Areas of focus:** Cloud computing, Artificial Intelligence, Software Development, Network Security
- Monaghan Collegiate School**, Leaving certificate Sept 2015 – June 2021
- Secured **566 points**, graduating amongst **top 10%** of cohort.

Experience

- Software Engineering Intern**, Rapid7 – Belfast, United Kingdom June 2023 – June 2024
- Automated the creation of security vulnerability artifacts by creating a Gen AI vulnerability advisory web scraper.
 - Provided customers with full security coverage for all Zoom CVE's
 - Solved customer facing issues in relation to broken fingerprinting vulnerabilities on the customers environments.
- Student Demonstrator**, Queens University – Belfast, United Kingdom September 2024 – 2024
- Provided hands on instruction and academic support for undergraduate computer science students.
 - Supervised computer science examinations ensuring compliance with academic regulations.

Projects

- Promptability**, Python, Javascript, React, Docker, Huggingface, Firebase 
- A user friendly tool that enables users to interact with hugging face Gen AI models and evaluate model performances against a dataset of narrative texts.
- Automated facial detection**, Matlab  
- An in-depth review of a variety of ML techniques for automated facial detection.
- Sustainopoly**, Java, Java Swing 
- An interactive Monopoly style board game themed around sustainability.

Technical Skills

Languages: Python, Java, JavaScript, HTML, CSS
Frameworks: React, FastAPI, Springboot, Maven
Developer Tools: Git, Docker, Kubernetes, Postman, Cloudflare, AWS Bedrock
Libraries: NumPy, Matplotlib, TensorFlow, Keras, scikit-learn
